MAG6588 Intelligent Network Paging Station

Features

- ➢ 1,000 zones which can be activated
- ➢ 7-inch true color LCD display
- ➢ 1 aux input,1aux output and 1 headphone
- ➢ Support TCP/IP
- ➢ Users can view zone information.
- ➢ Log management and screen calibration
- ➢ The backlight on time can be adjusted to save energy.
- ➢ Shared WAN/LAN network

Description

MAG6588 is intelligent network paging station allow up to 1,000 zones which can be activated by simply one button.It can realize zone based calling and group based calling.   Supports TCP/IP and is compatible to shared WAN/LAN network.The system can provide 1 AUX input,1 AUX output and 1 headphone monitoring interface to realize local extension.It provides log management and screen calibration functions.Users can view zone information.It can realize zone based calling and group based calling.

Specification

Rated Output Voltage	1.0±0.2V
MIC input sensitivity (1V output)	50±10mV
MIC distortion (1Kz/1V)	MIC: ≤0.2%
Effective frequency of MIC gain limit (±3dB)	40-20000Hz
MIC Signal to Noise Ratio (30K lowpass)	>75dB
AUX input sensitivity (1V output)	300±50mV
AUX distortion (1Kz/1V)	AUX≤0.1%
AUX Signal to Noise Ratio (30K lowpass)	≥80dB
Effective frequency of AUX gain limit (±3dB)	20-20000Hz
Effective frequency of monitoring (talkback voice) gain limit	40-13000 Hz
Working voltage	AC180-240V
Standby power consumption	14.5W
Package dimensions (mm)	（L×W×H）415×285×160
Net Weight	2kg
